

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Diagnostic services include the oral examinations and selected radiographs needed to assess the oral health, diagnose oral pathology and develop an adequate treatment plan for the Participant's oral health. Periodic exams are not a covered benefit for Participants age 21 and over.

Reimbursement for radiographs includes exposure of the radiograph, developing, mounting and radiographic interpretation. Reimbursement for multiple radiographs of the same tooth or area may be denied if Doral determines the number to be redundant, excessive or not in keeping with the federal policies relating to radiation exposure. Doral utilizes the guidelines published by the Department of Health and Human Services, Center for Devices and Radiological Health. These guidelines were developed in conjunction with the Food and Drug Administration and are described in Attachment J of this manual.

If the total allowed amount for radiographs performed on a participant exceeds the allowed amount for procedure code D0210 (Complete Series), the submitted radiograph codes will be consolidated and paid as a Complete Series (D0210). The maximum reimbursement for a single date of service for radiographs shall be limited to the fee for a complete service.

An initial examination is typically used when evaluating a patient comprehensively. It is a thorough evaluation and recording of the extraoral and intraoral hard and soft tissues. It may require interpretation of information acquired through additional diagnostic procedures. Additional diagnostic procedures should be reported separately.

PLACE OF SERVICE MUST BE INDICATED ON ALL CLAIMS.

Diagnostic						
Code	Description	Age Limitation	Teeth Covered	Authorization Required	Benefit Limitations	Documentation Required
D0140	limited oral evaluation - problem focused	21 and older		No	Limited emergency exam will only be covered when performed in conjunction with treatment to address an emergency situation. An emergency will be defined as treatment medically necessary to treat pain, infection, swelling, uncontrolled bleeding or traumatic injury. Not allowed with D9110.	Description of the emergency and description of services provided with claim.
D0150	comprehensive oral evaluation - new or established patient	21 and older		No	Once per lifetime. One comprehensive exam per patient per dentist or dental group per lifetime.	

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Diagnostic						
Code	Description	Age Limitation	Teeth Covered	Authorization Required	Benefit Limitations	Documentation Required
D0210	intraoral - complete series (including bitewings)	21 and older		No	One per 36 months.	
D0220	intraoral - periapical first film	21 and older		No	Maximum of one (1) per day per patient per dentist or dental group.	
D0230	intraoral - periapical each additional film	21 and older		No	Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).	
D0270	bitewing - single film	21 and older		No	Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).	
D0272	bitewings - two films	21 and older		No	Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).

D0274	bitewings - four films	21 and older		No	Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).	
D0277	vertical bitewings - 7 to 8 films	21 and older		No	Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).	
D0330	panoramic film	21 and older		No	One per 36 months. Maximum reimbursement for a single date of service for radiographs limited to fee for Complete Series (D0210).	

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Restorative services (amalgams and composites) are provided to remove decay and restore dental structures (teeth) to a reasonable condition. Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day.

Bases, cements, liners, pulp caps, bonding agents and local anesthetic are included in the restorative service fees and are not reimbursed separately.

Restorations are expected to last a reasonable amount of time. Repeated unexplained failures will result in review by Peer Review and may necessitate removal of the dentist from the panel.

Restorative						
Code	Description	Age Limitation	Teeth Covered	Authorization Required	Benefit Limitations	Documentation Required
D2140	amalgam - one surface, primary or permanent	21 and older	Teeth 1 through 32, A through T	No

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Endodontic services are provided to retain teeth through root canal therapy made necessary due to trauma or carious exposure.

The following guidelines must be followed when providing endodontic services:

The standard of acceptability employed for endodontic procedures requires that the canal(s) be completely filled apically and laterally. In cases where the root canal filling does not meet Doral's treatment standards, Doral can require the procedure to be redone at no additional cost. Any reimbursement already made for an inadequate service may be recouped after the Doral Consultant reviews the circumstances.

Root canal therapy for permanent teeth includes diagnosis, extirpation of the pulp, shaping and enlarging the canals, temporary fillings, filling and obliteration of root canal(s), and progress radiographs. The fee does not include the final restoration.

Root canals and pulpotomies may not be covered in the following situations:

- * Root resorption has started and exfoliation is imminent
- * Gross periapical or periodontal pathosis is demonstrated radiographically (caries to the furcation, or subcrestal deeming the tooth non-restorable)
- * The general oral condition does not justify root canal therapy due to the loss of arch integrity
- * Tooth does not demonstrate 50% bone support
- * Tooth demonstrates active untreated periodontal disease

Endodontics						
Code	Description	Age Limitation	Teeth Covered	Authorization Required	Benefit Limitations	Documentation Required
D3310	root canal - anterior (excluding final restoration)	21 and older	Teeth 6 - 11, 22 - 27	No	Once per lifetime.	

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Provisions for removable prosthesis included initial placement when masticatory function is impaired or when existing prosthesis is at least five years old and unserviceable.

Payment for dentures includes any necessary adjustments, repairs or relines necessary during the six - (6) month period following delivery of a new prosthesis. Relines are covered once every 24 months. The reimbursement for an incomplete denture service (non-delivery) will be limited to the out-of-pocket costs as documented by a copy of the lab bill. THE DATE OF PLACEMENT MUST BE USED AS THE DATE OF SERVICE WHEN SUBMITTING FOR PAYMENT OF DENTURES. Extractions and other procedures necessary prior to denture placement must be rendered and paid before dentures will be reimbursed. If immediate dentures, extractions must be rendered and billed with the same date of service as placement of the immediate dentures.

In situations where it is impractical to obtain pre-operative radiographs on a patient in a nursing home or long term care facility, a written narrative by the dentist stating that the patient is in a physical and mental state sufficient to function with full dentures is required for authorization.

Denture benefits for patients with the following medical conditions will not be considered for coverage:

- * Patients on feeding tubes
- * Post CVA patients with decreased facial muscle tone
- * Patients in a coma
- * Patients with diminished mental capacities that could not function with dentures
- * Patients who do not desire dentures
- * Advanced terminal patients

Prophylactic removal of multiple asymptomatic teeth, or teeth free from pathology is not a covered benefit.

Extraction of deciduous teeth that radiographically appear to be near imminent exfoliation is not a covered benefit.

Reimbursement includes local anesthesia and post-operative care.

Claims for all oral surgical procedures except simple, non-surgical extractions or for procedure code D7210 must include a pre-operative radiograph to be considered for reimbursement.

Simple and surgical extractions are covered. Local anesthesia and routine post-operative care are included in the fees and will not be reimbursed separately.

“Erupted surgical extractions” are defined as extractions requiring elevation of a mucoperiosteal flap and removal of bone, and/or section of the tooth and closure.

Tuberosity reductions are not payable in conjunction with extractions or alveolectomy in the same quadrant.

For oral surgery performed as part of emergency care, the requirement for prior authorization is waived. Service will still be subject to retrospective review. Emergency care is defined as treatment of pain, infection, swelling, uncontrolled bleeding, or traumatic injury.

PROVIDERS BILLING ANESTHESIA SERVICES WITH ORAL SURGERY SERVICES MUST HAVE THE APPROPRIATE PERMITS IN ORDER TO BE REIMBURSED FOR SEDATION. SEE ANESTHESIA CODES FOR FURTHER DETAIL (D9220 - D9248).

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Adjunctive general services include general anesthesia, intravenous sedation, nitrous oxide analgesia, consultations and various drugs and medicaments, and emergency services provided for relief of dental pain.

Procedure code D9110 – palliative treatment is to be used to bill for minor palliative procedures when the only other procedure code billed for is a diagnostic radiograph. If any other services (filling, endodontics, oral surgery etc.) are billed for on the same day, the palliative treatment code will be denied.

Sedation and general anesthesia will only be a covered service for participating dentists that hold the applicable permits required by the Illinois Dental Practice Act.

Requests for sedation and general anesthesia will be reviewed on a case-by-case basis. A case will be covered for Participants with physical or mental health problems of such severity that treatment can not be reasonably attempted without the use of sedation or general anesthesia. Sedation or general anesthesia may be allowed when a surgical procedure is being rendered. Claims for sedation and general anesthesia must include a narrative of medical necessity. Acceptable conditions include:

- * Toxicity to local anesthesia supported by documentation;
- * Severe mental retardation;
- * Severe physical disability;
- * Uncontrolled management problem;
- * Extensive or complicated surgical procedures;
- * Failure of local anesthesia;
- * Documented medical complications; and
- * Acute infection that would preclude the efficacy of local anesthesia.

For cases requiring sedation or general anesthesia, Providers must document the following in the Participant's chart for appropriate psychosomatic disorders: diagnosis, description of past evidence of situational anxiety or uncontrolled behaviors, and in the case of referral due to uncontrolled behavior, the name of the referring dentist or provider group. Apprehension alone is not typically considered medically necessary. Doral or HFS may elect to perform chart audits on these services. Services not documented as required may be denied for payment. The procedures will only be reimbursed for once per day regardless of the length of time it takes to complete the procedure.

General anesthesia, intravenous sedation, conscious sedation and nitrous oxide are only covered in conjunction with a covered dental procedure. Payment for any one of these services precludes payment for the remaining procedure codes. Payment for general anesthesia, conscious sedation or intravenous sedation includes any other drugs administered on the same day.

Reimbursement for local anesthesia is included in the fee for the procedures.

Procedure code D9230 – nitrous oxide, is a covered service for Participants who are mentally or physically challenged, or otherwise present with special management needs. Special consideration is granted to individuals under the age of six that require extensive dental treatment and/or exhibit rampant caries where patient management is a concern.

Only claims for nitrous oxide with documented medical necessity will be considered for payment. Medical necessity for the use of nitrous oxide would be broadly defined as some condition specific to the particular treatment situation that would preclude the performance of necessary dental treatment, with the use of a local anesthetic alone.

Attachment R: Benefits Covered - ADULTS - AGE 21 AND OVER

Some examples of conditions that would establish medical necessity for nitrous oxide are:

- * Apprehensive child under the age of six when any treatment is rendered
- * Apprehensive children between 6 and 10 years of age when restorative or surgery is performed
- * Apprehensive children between the ages of 10 and 18 years when surgical services are performed

All other situations for nitrous oxide will be reviewed for coverage on a case-by-case basis.

Procedure code D9310 – consultation, will only be reimbursed to a dentist other than the one providing definitive treatment. A consultation includes an examination and evaluation of the patient, and a written report from the consultant to the treating dentist. When billing for a consultation, a copy of the written report must be attached. When the consulting dentist also performs services reimbursement to that dentist will be limited to the actual services performed. There will not be a separate reimbursement for a consultation.

Procedure code D9999 is to be utilized to submit a request for reimbursement for a dental service not otherwise described herein. Request should include a description of the service, medical necessity, a proposed fee and any pertinent radiographs.

IN ACCORDANCE WITH THE ILLINOIS DENTAL PRACTICE ACT AS DEFINED IN THE ILLINOIS ADMINISTRATIVE CODE 1220.500, PROCEDURE CODES D9241 AND D9248 REQUIRE A DENTAL SEDATION PERMIT A OR DENTAL SEDATION PERMIT B IN ORDER TO PERFORM SERVICE.

PROCEDURE CODE D9220 REQUIRES AN DENTAL SEDATION PERMIT B IN ORDER TO PERFORM SERVICE.
